Custom Sourcing

Custom Sourcing

Fast – The beginning of the custom process depends on speed; especially in the early stages. We realize this and provide all custom and overseas decoration quotes within 24-48 hours.

On Time – Due to our level of volume with various factories, the production of your order is given a top priority. Our competent in house expertise, coupled with experienced factories, ensures a speedy production.

Cost Savings – Have your entire order produced and decorated overseas at a substantially reduced cost. Further, harnessing our buying power allows us to pass our savings to you, giving you the opportunity to be more profitable.

Risk Free – One importing mistake can ruin an order and its profit. Replace your personal risk with our years of expertise. We have and will continue to offer customers the competitive edge that comes with overseas production.

Quality Control – With our quality control division traveling to each factory, you can be assured your order will only ship after passing an extensive quality review. This allows direct-client drop shipments to be completed with peace of mind!

Low Costs, High Quality, Low Risk, High Speed.

To ensure safer delivery for bulk pack shipments via non LTL (less than full truckload) carriers or individual package carriers a "Safe Pack Protective" Box will be used.
